## LUNA LIGHT

### FS6029

The most luminous version of this collection. Composition that inspires a mixture between natural stone and lunar surface, thanks to a magical game between pearl grey shades and darker shades, which give the whole a worn look. A background with subtle changes of tone, and a very volatile veining makes Luna Light spectacularly elegant and capable of making everything around it shine. A gift for the senses, which turns any environment into a high-class space.
